

MAKES IDEA FOR GALVESTON IDEA

Means a Clean, Business-Like Administration, Says Stephens.

MORAL ELEMENT A FACTOR
NEED HEALTHY ATMOSPHERE FOR RISING GENERATION.

"The Galveston Idea" was the subject of a loud and interesting talk given yesterday afternoon by Frank B. Stephens before the members of the Ladies' Literary club. After a careful review of the situation which led to the adoption of the plan now in force in Galveston, and giving a comprehensive talk on the ordinary kind of government used in cities of the United States today, Mr. Stephens said in part:

"The Galveston Idea is that we should elect at large, by the whole city, a small body of men who are well paid and who are expected to devote their entire time, if necessary, to the work. They can then make a study of the conditions, and they will be in a position to do just such efficient work as is done by the managers of industrial and mercantile corporations. We would have them in session at least five days and two evenings in a week. Being themselves personally responsible for the well-being of the city and not being able to throw the responsibility upon someone else, they will have a pride in making a good record.

"We do not claim that such a system will take the government entirely out of politics, but we do claim that here, as in Galveston, the issues will be narrowed down between the most moral, intelligent and progressive citizens upon one side, and those who favor upon the infirmities of mankind upon the other. And when that line is drawn, the right always prevails.

A Business Corporation.

"Salt Lake is a great business corporation. Its annual revenues and expenditures run into millions. The citizens are the stockholders. When these citizens are stockholders in other corporations, the success or failure simply affects their pockets. As stockholders in a municipal corporation, the administration of its affairs involves not only the pocketbook, but the physical, intellectual and moral well-being of himself and his family.

"As you all know, there was introduced in our legislature, and there passed by the senate unanimously, a series of bills to put our city government upon the Galveston basis. When the bills got into the house, then the politicians came to work, and strange to relate, two political forces diametrically opposed to each other are opposing this change in our government—each afraid that if adopted, the other will elect the first officers.

"In the discussion of the Galveston Idea, the financial end of the proposition, but I think you will agree with me that the direct financial saving under a cleaner and more efficient system of city government, will be the smallest benefit derived. Indoubtedly, without the sense of duty and moral duty, without the sense of duty and moral duty, we could compute, I suppose upon the cold basis of so much cash saved, the value to our city in a better administration of its affairs, in that cleanliness, which is next to Godliness, and without which true civic improvement is never attained. But let us see if civic improvement, especially along physical and moral lines, is not still more far reaching than anything we have yet touched upon.

Effect on Character.

"The great problem in life is character building. We are largely creatures of environment. Our children are going through a process of character building which will determine their happiness and usefulness in the world. No matter what influence we may have directly in the home, if our children are brought up in an unclean physical and moral environment, the character they build is sure to be impressed to a certain extent by the models they daily fix their eyes upon.

"It is not so much the doing of some great thing as constant thought about and interest in the things needed. I often think that we get fully as good government as we deserve—certainly as good as we can expect while we think so little about it. We can have anything we really want.

"When the Galveston flood came the whole people were at once aroused and they got at once what they asked for. Now her neighboring city, Houston, is having difficulty in getting the same thing because not enough of her people take an interest in it.

Miss Quailrough Speaks.

Besides the regular literary program of the afternoon, which was given by Miss Elizabeth M. Quailrough, principal of the Quailrough school, spoke to the club in behalf of the City Teachers' association in regard to the tax bill now before the legislature. Miss Quailrough was greeted with hearty applause, and at the close of her short speech she was again warmly applauded, and a motion was passed unanimously instructing the secretary to write to both houses and to the governor endorsing the measure and the taxpayers asking the passage of the bill. Much of the matter presented was similar to that already published, but it was presented in such a form as to make an especially strong appeal to the members of the club.

Coughs that "hang on" are coughs that need watching. They weaken the lungs and give consumption a chance.

Scott's Emulsion

of pure cod liver oil soothes and heals the affected membranes, makes fat and pure rich blood. It strengthens weak lungs.

All druggists, 50c. and \$1.00.

TARIFF AND THE JAP QUESTION

President Getting Ready to Take Some Sort of Action on Both Matters.

CONFERENCES WITH ROOT
ANNOUNCEMENT IS EXPECTED SOON.

Washington, March 8.—Within the coming two weeks President Roosevelt expects to give executive attention to the German tariff question and to the Japanese situation. Already he has had several talks with Secretary Root and Mr. North, who was at the head of the American delegation which went to Germany last winter to conduct negotiations with that government on the German tariff question. The details of the conferences have been laid before the president, and some announcement as to what, if anything, is to be done by this government is expected soon.

Just what the procedure on the Japanese question will be has not been announced. It may be, however, that it will take the form of an executive order putting into effect that feature of the immigration law enacted by the last congress which gives the president authority "whenever he is satisfied that passports issued by any foreign government to its citizens to go to any country other than the United States, or any insular possession of the United States or the canal zone, are used to enable the holders to come to the continental territory of the United States, to the detriment of labor conditions, to refuse to permit such citizens of the country issuing such passport to enter the continental territory of the United States."

Although the Japanese are not mentioned specifically in this provision of the law, the legislation was enacted in accordance with the president's agreement with the San Francisco school authorities.

McCLELLAN LOSES A POINT

Appellate Division of Supreme Court Indorses Hearst Quo Warranto Proceedings.

New York, March 8.—By a unanimous vote the appellate division of the supreme court today decided against Mayor George E. McClellan in his legal fight to prevent quo warranto proceedings, or a recount of the votes cast in the New York City election of 1905. There was added to the decision a recommendation that the questions involved be passed up to the court of appeals for a final ruling.

"The appellate division's view is that the action of a former attorney general, Julius M. Mayer, in refusing to institute the quo warranto proceedings did not serve as a bar to such action upon the part of the present attorney general, who undertook the suit at the request of William R. Hearst.

Justice Ingraham in his decision said there could be no question that upon the allegations of the complaint the plaintiff has good cause of action. There is no provision, he decided, that would limit or restrict the attorney general in the exercise of his discretion as to whether an act by the people should be brought. The decision added: "From the very nature of the discretion vested in him, it seems to me impossible to say that he exercises at any time a judicial function or that any determination becomes an adjudication which binds on him or anybody else. The question is not judicial in nature, the fact that one attorney general determined that he was not justified in commencing an action is no bar to the same attorney general or his successor subsequently determining the facts as then presented require that the action be instituted."

UNIVERSITY NOTES.

At a rousing meeting of the student body of the university yesterday morning, Coach Maddock and Professor Byron Cummings were presented with "U" sweaters as tokens of appreciation of the students for the work they had done in behalf of the school athletics. It came as a complete surprise to both of the men.

Professor Cummings and others gave brief talks. Professor Cummings urged the support of students' activities. He said there are two types of men in college, the one that lives only for his books and studies, and the other who supports the activities of the students. The latter in almost every case is the more successful.

Representative Nephew C. Jensen spoke to the students of the university yesterday morning. He said he had particular interest in speaking to the students as he was once a student of the school himself. He said that the school is a great institution of learning would be formed if the two schools were welded together.

The chapel exercises at the university yesterday morning were conducted by Professor Levi Edgar Young. He talked on the service we have in life and what we should do in rendering that service. He advised the students to make every minute useful.

The medical society of the university met yesterday and decided on a track race between the first and second year medicals. A committee was selected to draw up the eligibility rules and to select the date. Both sides have some good material.

IMPROVING POSTOFFICE.

Changes Are Designed to Facilitate the Service.

The work of remodeling the postoffice so as to afford better and quicker service is progressing rapidly. The last bay of letter boxes on the north side was removed to the front corridor and installed where the east and west letter chutes meet formerly.

This change was made so as to make the handling of mail more convenient for the clerks, and consequently save time. There will be four chutes for outgoing mail, north, south, east and west.

The work of enlarging the registry department will begin next week.

ORINO Laxative Fruit Syrup

Pleasant to take and does not gripe or nauseate

Cures Chronic Constipation, Stomach and Liver Trouble

Stimulation Without Irritation.

ORINO Laxative Fruit Syrup is a new laxative syrup combined with the delicious flavor of fruits, and is very pleasant to take. It will not gripe or sicken. It is much more pleasant and effective than Pills, Tablets and Saline Waters, as it does not derange the Stomach, or irritate the Kidneys, Liver or Bowels.

Constipation.

ORINO Laxative Fruit Syrup will positively cure chronic constipation as it restores the natural action of the intestinal tract. Ordinary cathartics may give temporary relief but the stomach is upset and the bowels are irritated without any permanent benefit having been derived.

The condition of the patient remains unchanged. The Stomach, Liver and Bowels have not been stimulated and in a few days a stronger purgative may have to be taken. This is why Pills and Aperient Waters never give permanent relief. Their violent action results in an unnatural movement of the bowels and it is necessary to keep taking them indefinitely.

Why ORINO is different.

ORINO Laxative Fruit Syrup is the only preparation that really acts upon all of the digestive organs. Other preparations act upon the lower bowel only and do not touch the Liver. It can very readily be seen that a preparation that does not act upon all of the digestive organs

can not cure Chronic Constipation, Torpid Liver, Indigestion, Sour Stomach, etc.

For Biliousness and Sick Headache.

Take ORINO Laxative Fruit Syrup. It sweetens the stomach, aids digestion and acts as a gentle stimulant on the liver and bowels without irritating these organs.

Clears the Complexion.

ORINO Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children as it is mild and pleasant, and does not gripe or sicken. Refuse substitutes.

OUR GUARANTEE

Take ORINO Laxative Fruit Syrup and if you are not satisfied your money will be refunded.

Prepared only by FOLEY & CO., Chicago, Ill.

SOLD AND RECOMMENDED BY

TELLS STORY OF CRUELTY

Mrs. Rose Dubrasky Freed From Marriage Bonds—Burglar's Wife Gets a Decree.

Out of four divorce cases heard in Judge Morris' court Friday, two decrees were granted and two cases continued.

The first case called was that of Mrs. Frank Dubrasky against her husband. Rose Dubrasky against her husband ground of drunkenness and cruelty and the testimony of a brother of Mrs. Dubrasky corroborated the evidence of the wife. The pair were married in Cedar Rapids, Iowa, some fifteen years ago and for a year and a half past have made their home in Salt Lake.

"He got drunk about every three weeks," said Mrs. Dubrasky, "and he seemed to be growing worse. He struck me and called me vile names and sometimes threatened to kill me."

Asked for a specific instance of such treatment she told how on Christmas night her husband came home drunk and threatened to shoot her. She has not seen him since. She has a past fear he might carry his threat into execution.

Alma Baker then told the court of her marriage to William W. Baker on February 3, 1906. Baker was sentenced to a term in the state prison on January 8 of this year for burglary. She testified that she got her divorce along with others.

Christine Werks yesterday filed suit for divorce against Martin Werks. Cruelty, harsh and abusive language and an occasional blow, together with failure to support are named as the causes of the action.

David W. Medbury yesterday filed suit in the district court against W. E. Sherry and the Lincoln-Nevada Mining and Milling company to compel the issuance to him of a deed for the stock of the company for money advanced and services rendered.

In the case of the Utah Savings and Trust company, against the State of Long, Judge Morris yesterday granted a decree quieting plaintiff's title to certain real estate. In the case of the same company against Maude M. Long, Judge Morris issued a decree foreclosing a mortgage of \$2,343 on real estate.

Suit was filed in the district court yesterday by James I. Gallacher against the American Surety company of New York, and James Roran. The complaint alleges that Roran built a three-story tenement for Gallacher on contract and that the American Surety company went into possession of the building and refused to perform as to the terms of the contract and judgment for \$1,233 is asked.

REAL ESTATE TRANSFERS.
J. A. Rockwood to S. A. Hancock, et al., lots 7 and 8, block 1, Hunter's subdivision, \$1,850.

Oscar A. McPherson to J. A. Rockwood, et al., part of lot 2, block 3, Fountain place addition, \$1,500.

E. M. M. to J. A. Rockwood, et al., lots 2 and 3, block 1, North Water, \$600.

The Elias Morris & Sons Co. to J. A. Rockwood, et al., land in section 4, township 2 south, range 1 west, \$2,300.

J. A. Frick to Irene Dickson, lot 2, block 1, Cantail addition, \$600.

C. S. Stoker to Rhoda A. Stoker, lots 3, etc., block 1, North Water, \$100.

Mary E. Foster to Louise Connell, et al., part of lot 1, block 13, plat F., \$750.

George E. Gordon to George Q. Cannon association, lots 7, etc., Desky's second addition, \$1,500.

F. Fitzgerald to W. H. Wright, property in Bingham, \$1,200.

George T. Brice to Edward B. Wickes, lot 1, block 2, \$1,335.

Ella Martin to Gustaf O. Janson, lots 11, etc., block 4, Alta place, \$800.

G. E. Stoker to Rhoda A. Stoker, staff mines Co., lot No. 9, etc., South Cottonwood, \$1.

C. Stohandse to F. E. Stoker, part of lot 7, block 2, plat B., \$500.

STILL SHORT ON VEGETABLES

Dealers Unable to Supply Demand for Garden Track—Fresh Tomatoes in Market.

The vegetable situation remained unchanged on the local market Friday. There were a few vegetables to arrive during the day, but the demand was treble the supply. The shortage was felt principally in lettuce and radishes, there being no shipments of these vegetables to come in yesterday.

A carload of tomatoes arrived, being the fourth carload consignment to reach the market this season. The carload arrived too late to be quoted on the retail market, but the wholesale price was \$3.50 a crate.

The fish merchants are complaining of a shortage in their line but when asked to give a reason none of them could make a satisfactory reply. Their orders, which have been placed for some time, are being only partly filled. Consequently they have had a hard time endeavoring to supply the trade. Lake white bass, surgeon and Mackinaw trout were in market. The former selling for 25 cents a pound and the two latter varieties at 20 cents a pound. These varieties are in market only occasionally this time of year.

Every day is a good day to serve MOUNT'S Pork and Beans, with tomato sauce. Serve hot or cold.

DIES OF DIPHTHERIA.
Emma Richardson, the 7-year-old daughter of Steve Richardson of Murray, died of diphtheria at her father's residence yesterday afternoon. The disease was contracted two weeks. The funeral was held yesterday afternoon.

GIRL BABY'S AWFUL ECZEMA

Sight of Eye Destroyed by Disease—Tried Five Doctors but Grew Worse—in Agony Eight Months—Parents Discouraged, Until They Tried Cuticura Remedies

IN ONE WEEK ALL SORES DISAPPEARED

"Our little girl, one year and a half old, was taken with eczema or that was what the doctor said it was. We called in the family doctor and he gave some tablets and said she would be all right in a few days. The eczema grew worse and we called in doctor No. 2. He said she was teething, as soon as the teeth were through she would be all right. But she still grew worse. Doctor No. 3 said it was eczema. By this time she was nothing but a yellow, greenish sore. Well, he said he could help her, so we let him try it about a week. One morning we discovered a little yellow pimple on one of her eyes. Of course we phoned for doctor No. 3. He came over and looked her over and said that he could not do anything more for her, that we had better take her to some eye specialist, since it was an ulcer. So we went to Oswego to doctor No. 4, and he said the eyesight was gone, but that he could help it. We thought we would try doctor No. 5. Well, that proved the same, only he charged \$10 more than doctor No. 4. We were nearly discouraged, I saw one of the Cuticura advertisements in the paper and thought we would try the Cuticura Treatment, so I went and purchased a set of Cuticura Remedies, which cost me \$1, and in three days our daughter, who had been sick about eight months, showed great improvement, and in one week all sores had disappeared. Of course I could not restore the eyesight, but if we had used Cuticura in time I am confident that it would have saved the eye. We think there is no remedy so good for any skin trouble or impurity of the blood as Cuticura. Mr. and Mrs. Frank Abbott, R. F. D. No. 9, Fulton, Oswego Co., N. Y., August 17, 1906."

Complete External and Internal Treatment for Every Humour of Infants, Children, and Adults.
